

C_bot

Getting Started Guide

1. This is one time Set up of **C_bot**; if you get stuck somewhere, please contact on below Telegram Channel
 - a) [Telegram Channel](#)
2. Open Zerodha account by clicking on the link below
 - a) [Open Zerodha Account](#)
3. Sign up below for getting access code for Automatic trading
 - a) [Kite Connect Sign Up](#)
4. Login to Kiteconnect
 - a) [Kite Connect Login](#)
 - b) Click on Create new App as illustrated below

- c) Enter required info as illustrated below and then Click on Create

The screenshot shows the "Create a new app" form. At the top, it says "Creating an app gives you an API_KEY and API_SECRET". The main heading is "Create a new app". Under "Type *", there are two options: "Connect" (selected with a radio button) and "Publisher (Free)". The "Connect" option has a red arrow pointing to it. Below the "Type" section, there are four input fields: "App name *" (with "Type anything" placeholder), "Zerodha Client ID *" (with "Enter Zerodha ID" placeholder), "App icon" (with "Choose File" button and "No fil...osen" text), "Redirect URL *" (with "https://clubchillax.com" placeholder), and "Postback URL" (with "https:// Leave Blank" placeholder). Below these fields is a "Description *" text area with "Type anything" placeholder. At the bottom, there is a blue "Create" button with a red arrow pointing to it. There are also footnotes: "* fields are mandatory" and "**Learn more about Redirect url & Postback url".

d) Click on App as illustrated below

The screenshot shows the 'My apps' page in the Kite Connect dashboard. At the top, there is a navigation bar with 'Kite Connect' on the left and 'My apps', 'Billing (0)', 'Profile', 'Forum', and 'Logout' on the right. Below the navigation bar, it says 'You have 1 app(s)'. The main heading is 'My apps' with a 'Create new app' button on the right. A table lists the app details:

	API Key	Expiry
Active  Chillax Kite connect + Publisher		18 days 09 Mar 2021

A red arrow points to the 'Chillax' app entry.

e) Click on Show API Scret as illustrated below

The screenshot shows the 'Chillax' app details page. The app is 'Active' and was created on 20 Aug 2020. The page is divided into two main sections: 'App details' and 'Subscription'.

App details:

- App name: Chillax
- App icon: Choose File (No file chosen). Note: 64x64 px PNG images only.
- Redirect URL: (Empty field). Note: The url to which a user will be redirected after the login flow for Kite Connect. This has to be an HTTPS url. You can use a http://127.0.0.1 URL for testing. For Publisher, the redirect url does not matter until you want to do advanced offsite basket execution.
- Postback URL: https://. Note: The URL where realtime order completion updates for orders placed by you will be POSTed. This has to be an HTTPS url.
- Status: (Empty field)

Subscription:

- Expires on: (Empty field). Buttons: Extend, Cancel.
- Addons: Historical API (2000 / month). Button: Subscribe.
- API key: (Empty field). Buttons: Show API secret (highlighted with a red arrow), Re-generate API secret.

f) Copy the API Code and API Secret as illustrated below

Chillax
Kite connect + Publisher (Created on 20 aug 2020) Active

App details

App name:
Chillax

App icon:
Choose File No file chosen
64x64 px PNG images only

Redirect URL:

The url to which a user will be redirected after the login flow for Kite Connect. This has to be an HTTPS url. You can use a http://127.0.0.1 URL for testing. For Publisher, the redirect url does not matter until you want to do advanced offsite basket execution.
